Remote Work and Data Access Policy

1. Purpose

This policy explains how employees may work remotely and how they access company systems while off-site. It applies to all full-time and part-time staff.

2. Approved locations

Employees must work from a company-approved location. Approved locations are the home office, a company office, or a client site registered with IT.

3. Password and authentication

All employees must rotate their account passwords every 60 days. Multi-factor authentication is required for every system that stores customer data.

4. Device requirements

Laptops used for remote work must have full-disk encryption enabled and automatic screen lock after 10 minutes of inactivity.

Control | Requirement
Disk encryption | Mandatory
Screen lock | 10 minutes
Backup | Weekly

5. Reporting a lost device

An employee must report a lost or stolen device to the IT service desk within 24 hours of discovery.
